Experience

OnSolve . August 2019 – Current

UX Designer

My role is to provide user journeys, wireframes, designs to help build a SaaS-based critical communication platform.

Rentpath . April 2019 – August 2019

UX Designer

My main role was to help provide designs, ideas, help define requirements, and drive design based initiatives to provide an end-to-end rental experience.

Tyrannosaurus Tech . October 2018 – April 2019

UX Consultant

I created user journeys, user flows, and provided final designs to a medical scheduling web application.

SnifferGPS . July 2018 – October 2018

UX/UI Designer

I researched and designed an iOS app, leveraging design thinking to create a seamless experience for users to view their pet's location & track activity levels.

Cotiviti . Jun 2017 – May 2018

System Analyst

My primary role was to improve Cotiviti's enterprise applications, resulted in reduced training time and improvement in productivity.

Newell Brands . May 2016 – August 2016

Brand Marketing Intern

My primary project was to conduct product design research and development between the engineering & marketing teams.
